This letter is to confirm that MBT Ireland has been using Fastway for the majority of our 32 county deliveries to MBT retailers. We have been using the Fastway service since December 2004.

We over the years have used a number of courier services and have found that Fastway are as good as the best in the service they offer and the best overall value for money.

We have no hesitation recommending them to other business customers who need next day parcel service to their customers.

Yours truly,

Noel May
Managing Director
